

- 17 years of global business experience
- Localized sales, service and operation team
- Serve many global clients and has a good understanding of local compliance requirements
- Multilingual services

NSFOCUS

ABOUT US

NSFOCUS, a pioneering leader in cybersecurity, is dedicated to safeguarding telecommunications, Internet service providers, hosting providers, and enterprises from sophisticated cyberattacks.

Founded in 2000, NSFOCUS operates globally with over 4000 employees at two headquarters in Santa Clara, CA, USA and Beijing, China, and over 50 offices worldwide. It has a proven track record of protecting over 25% of the Fortune Global 500 companies, including four of the five largest banks and six of the world's top ten telecommunications companies.

Leveraging technical prowess and innovation, NSFOCUS delivers a comprehensive suite of security solutions, including the Intelligent Security Operations Platform (ISOP) for modern SOC, DDoS Protection, Continuous Threat Exposure Service (CTEM) and Web Application and API Protection (WAAP). All the solutions and services are augmented by the Security Large Language Model (SecLLM), ML, patented algorithms and other cutting-edge research achievements developed by NSFOCUS.

Security Made Smart and Simple

apmarketing@nsfocusglobal.com

NSFOCUS Technologies (S) Pte. Ltd.
8 Burn Road, Trivex, #16-04
Singapore 36997

Accreditations

CMMI DEV / 5

- ISO/IEC 27001
- ISO/IEC 20000
- ISO 9001
- ISO 14001
- ISO 45001
- ISO 22301

Certifications

- 24 years of industry-leading experience
- Trusted by 200k+ organizations across all industries
- 4000+ employees with 65%+ technical staff

Hybrid DDoS Defenses

On Premises DDoS Defenses + Cloud DDoS Protection Service

The combination of NSFOCUS On-Premises DDoS Defenses combined with NSFOCUS Cloud DDoS Defenses eliminates all DDoS attacks targeting both customers and infrastructure.

- Anti-DDoS System (ADS)
- Network Traffic Analyzer (NTA)
- Anti-DDoS System Manager (ADSM)
- Magic Flow (MF)
- Flow Load Balancer (FLB)
- Active Defense Business Operating System (ADBOS)

RSAS

Remote Security Assessment System

NSFOCUS RSAS provides comprehensive vulnerability detection, expert security analysis, and actionable remediation guidance to safeguard your critical data assets and meet compliance requirements.

- System Vuln. Scanning
- Web Application Vuln. Scanning
- Insecure Config. Checking
- Weak Password Protection
- Cloud Computing Vuln. Scanning
- Code Auditing
- Container Image Vuln. Scanning
- Container Image Config. Checking
- Big Data Vuln. Scanning
- Vuln. Verification
- Endpoint Agent Scanning
- IoT Vuln. Scanning

Available in both hardware and VM subscription formats, ensuring flexible deployment options for your needs.

Web Application & API Protection

Web Application Firewall

Shield your applications with our versatile WAF, a critical component of defense-in-depth security. Deploy it as a standalone solution, seamlessly integrate it with our ADS Series for enhanced protection, or leverage its cloud-based deployment for unrivaled flexibility.

- Comprehensive Protection
- API Security
- Dynamic Bot Traffic Protection
- Professional Support and Emergency Response
- Layered Protection with Multiple Mechanisms

Security Operations

Intelligent Security Operations Platform

Powered by Extended Detection and Response (XDR) technology, NSFOCUS ISOP is a consolidated security operations platform designed for modern security operations centers (SOC) to streamline security analyst experience, improve threat response efficiency and raise security operations productivity.

NEXT-GEN SIEM

- Next-Gen SIEM
- Threat Intel DB
- Rule Library
- Vuln. DB
- Knowledge DB
- 3rd Party Data

THREAT DETECTION AND INVESTIGATION

- XDR
- ML Powered
- Threat Intel
- Correlation Analysis
- Behavioral Analytics
- ATT&CK
- Attacker Profiling
- Incident Retrospection

SECURITY ORCHESTRATION AND RESPONSE

- SOAR
- Automated Playbooks
- One Click Containment
- NSFGPT
- Alert & Notification
- Ticket System

ASSET DISCOVERY AND POSTURE MANAGEMENT

- Asset Discovery
- Vuln. Assessment
- Security Governance
- Dashboard

Innovative Technology

NSFGPT - SecLLM

NSFOCUS has developed the specialized Security Large Language Model "NSFGPT", a groundbreaking tool specifically tailored to address the unique challenges and needs of the security industry.

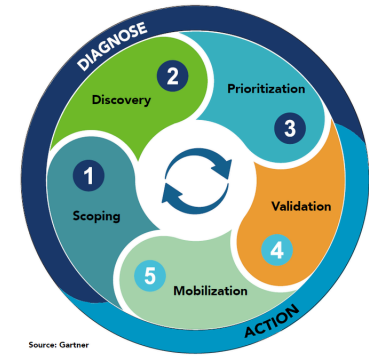

AI-Enhanced Security

- AI is embedded into each function of ISOP to provide natural language AI assistant capabilities.
- Help enterprises improve security operation efficiency and capabilities with machine speed and scale
