Note:

Make sure that this version is used together with an ADS or NTA version listed in **Managed Device**; otherwise, the collaboration function will be unable to work properly.

Open Bugs

N/A

Function Changes

Modified Functions

- Under **Device Management > ADS Device**, the description of actions in the dialog box for importing an access control rule is corrected in both English and Japanese.
- The issue that common users cannot view the **Traffic Monitoring** page is solved.

- The function of regularly clearing old logs and temporary files in some directories is improved, optimizing the space for storing logs.

Upgrade and Rollback Paths

ADS M can be upgraded to V4.5R89F03SP02 from V4.5R89F03 or V4.5R89F03SP01.

Note:

After being upgraded to V4.5R89F03SP02, ADS M cannot be rolled back to the source version.

Upgrade Procedure

Make sure that the current ADS M version is V4.5R89F03 or V4.5R89F03SP01. If the current version is an earlier version, ask technical support personnel of NSFOCUS to upgrade it to V4.5R89F03 or V4.5R89F03SP01.

To perform the upgrade, follow these steps:

- Step 1** Log in to the web-based manager of ADS M.
- Step 2** Choose **Administration > Local Settings > System Upgrade**.
The **System Upgrade** page appears.
- Step 3** Browse to the upgrade file **update_adsm_V4.5R89F03SP02build20171108.zip**. Then click **Upload**.
- Step 4** After the upgrade package is successfully uploaded and the version number is confirmed to be correct, click **OK** to start the installation.
- Step 5** After the system informs you that the installation is complete, click **OK** to restart the system service.
- Step 6** Refresh the web-based manager. Click **About** in the upper-right corner of the manager to check the current system version.
 - If Product Version is V4.5R89F03SP02 and Build Date is 20171108, the upgrade succeeded.
 - If Product Version is not V4.5R89F03SP02 or Build Date is not 20171108, the upgrade failed. In this case, contact technical support personnel of NSFOCUS.

----End

Note

After ADS M is upgraded to V4.5R89F03SP02, you need to redeploy ADS Portal under **Administration > Third-Party Interface > Portal Configuration**.
