NSFOCUS
SECURITY MADE SMART AND SIMPLE

Global TOP 10 Public Cloud Corporation Partners with NSFOCUS on Cloud DPS Solution and API Integration

About NSFOCUS

NSFOCUS is an iconic network and cyber security provider for telecom carriers, BFSI, enterprises, healthcare, retail and SMBs. It has a proven track record of protecting over 25% of the Fortune Global 500 companies, including four of the five largest banks and six of the world's top ten telecommunications companies.

NSFOCUS delivers a holistic suite of security products powered by industry leading threat intelligence. These security products work in concert to protect you from massive volumetric DDoS attacks, Web threats and advanced persistent threats (APTs).

As a global TOP 10 public cloud corporation, millions of end user customers order and access to its IaaS/SaaS every second globally. Its business is complex to protect and very sensitive to any impact on user perception. It also requires prompt response and everything to be automatic. By partnering with NSFOCUS, all those challenges facing the customer were solve. NSFOCUS provided Cloud DPS solution with API integration to make almost all actions automatically along with good protection performance. In addition, NSFOCUS's SOC team provided Managed Security Service to reduce the customer's strain on cyber attacks and focus on their own business.

NSFOCUS Solution

With 8 Cloud PoPs globally, NSFOCUS ensures the high service availability to provide continuous protection to the customer, and all network connections are established in one shot at the very beginning.

With API integration between NSFOCUS Cloud portal and the customer's platform, all on-boarding & off-boarding related actions could be automatically done on NSFOCUS side, which could directly be triggered by actions on the customer side. Two platforms act like one, achieving high efficiency and promptness. All traffic and attack-related data could be automatically fetched and shown in real time in the customer's platform.

With the help of NSFOCUS's SOC team, customer's business was taken care of and protected 24/7proactively under Managed Security Service. Continuous tuning and optimization on detection and protection were carried out to ensure policies could always match with customer's business and recent attacks encountered.
